INTRODUCING

THE REAL TRADING BOT
100% AUTO PILOT

TRADING PLATFORM OF THE FUTURE

Meta Futures is a one-click to start the quantitative trading system, realize automatic intelligent trading, real-time monitoring and tracking of big data algorithms.

MetaFutures

The Meta Futures quantitative team has many years of practical experience in quantitative strategies, and has developed a professional quantitative knowledge classroom for novices, so that Meta Futures will become a quantitative master in a short time and use Meta Futures quantitative robots to maximize profits in digital currency investments.

HOW DOES IT WORK?

The system uses artificial intelligence algorithms to automatically match quantitative trading strategies that are suitable for the current market situation, by using SPOT market analysis.

This eliminating the problem of emotional and unprofessional judgments of quantitative trading users' trends and failure to match in time using corresponding strategies.

Why Meta Futures?

We make use of technical analysis, sentiment analysis and complex mathematical models, following by a scientific approach of Quantitative Trading

Global Trading Platform

Our bot is supported by the largest mainstream trading exchanges in the market.

Variety of trading options

Gain access to 98+ crypto currencies and tokens on the market.

Security Of Funds

Your funds are securely locked in your own account in the trading exchange, third parties have no access.

Smart Trading Strategy

The bot applies quantitative analysis and the martingale system to double up profits.

24 Hour Monitoring

The bot will analyze the market 24/7 and execute trades instantly for profit.

Customizable Strategies

You can customize the bot settings based on your risk control for trading's.
